

## Event 2 Lesson 3 Worksheet

### Red Flag

Jack is 16 and currently in year 12. Over the summer he started a job working part-time at a local, independent shop, whilst he's studying for his A-Levels. Jack is active on multiple social media profiles, including TikTok, Snapchat, Instagram, YouTube and Discord. He has over 5,000 subscribers, on his YouTube channel and he uploads gaming content on a twice weekly basis. None of his social media profiles are private.

Scenario	Green Flag (safe)	Amber Flag (depends)	Red Flag (unsafe)
When he attends social events, Jack tags his location on Snapchat and Instagram			
He keeps his bank card in the back of his clear phone case			
He has a different password for each social media account, with a mixture of letters, numbers and special characters.			
Jack uses his debit card to make purchases on JD Sports.			
He gave a new connection on Discord his Snap.			
When his computer antivirus ran out, he renewed it instantly.			
He posted a YouTube video of himself gaming, in his work uniform.
